System Introduction

Contents, Revision

	Page	Rev.
Overview of the manual	1	01
Installation and start-up working procedures and documents required	3	01

The UROSKOP D1, UROSKOP D2 or UROSKOP D3 of the UROSKOP D series are in each case delivered ex works as a system unit. The components are tested and adjusted there .

The documents for the UROSKOP D are contained in the following binders:

- **Installation/start-up manual** RLL5-310.064.06
- **System information manual for service companies** RLL5-310.064.01
- **Wiring diagram/functional description manuals**
  - Unit + X-ray generator RLL5-310.064.02
  - Image intensifier + TV components RLL5-310.064.03
- **Service manuals**
  - Unit + X-ray generator RLL5-310.064.04
  - Image intensifier + TV components RLL5-310.064.05
- **LOG book** RLL5-310.066.01
- **Customer's documents**
  (They are handed over to the customer after start-up)

- The **Installation/start-up manual**
  contains the documents required for the installation and start-up of the total UROSKOP D system.

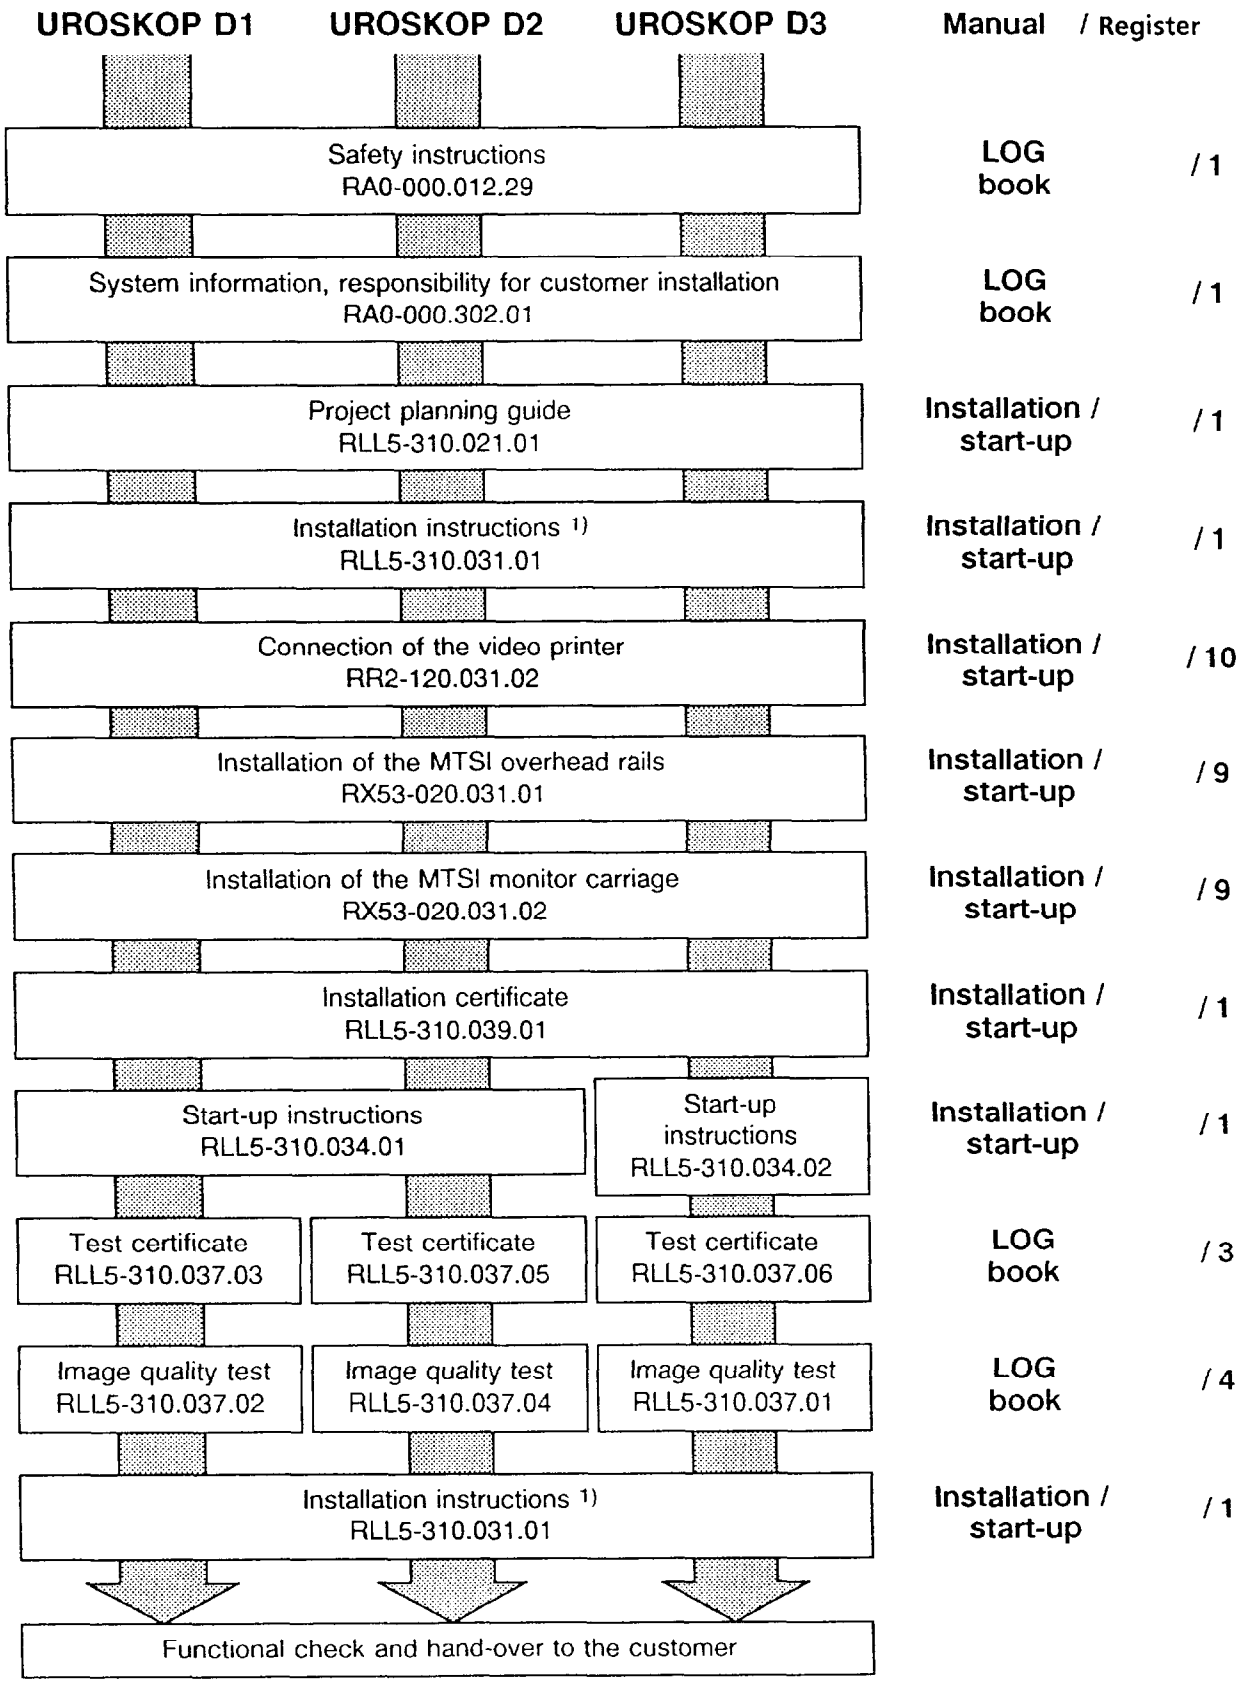
- The **System information manual for service companies**
  contains installation documents for service companies

- The **Wiring diagram/functional description manuals**
  contain the sets of wiring diagrams and functional descriptions of the UROSKOP D system as well as of the installed components.

- The **Service manuals**
  contain the documents of the UROSKOP D system as well as of the installed components required for servicing.

- The **LOG book**
  contains the system introduction provided here, the LOG book introduction as well as the safety instructions.

  The following are also in the LOG book:
  - Compatibility and product status lists.
  - Software and firmware descriptions as well as floppy disks for individual system matching and for service work.
  - Certificate forms and quality verifications of the UROSKOP D system and if necessary of the installed components.



1) Attach panels only after start-up
